Additional

- ❑ I use the Ontario Curriculum to guide my lesson planning,
- ❑ I have learned through experience the need to balance and plan effectively for all lessons and assessments, having the end result in mind.
- ❑ I regularly use technology in the classroom, including LCD projectors, webquests, online quizzes and assignments. I have started electronic submission of assignments through student websites and email submission.
- ❑ Students in my class are part of a learning community, aware of their place in the school, community, and the world.
